

The El Cajon Redevelopment Agency would like to invite you to a community workshop regarding potential changes to the Agency's redevelopment program.

The Agency is considering the addition of area, an increase of time limits, and extension of the time the Agency may use eminent domain. These changes will allow the Agency to fund critically needed projects and programs that will address health and safety issues in important neighborhoods, support the local business economy, create new affordable housing, build public improvements, and create public amenities and recreational opportunities. Project Information may be accessed at www.ci.el-cajon.ca.us or contact Jim O'Grady at jogrady@cityofelcajon.us

MEETING DATES:

See map on opposite side.

If you are unable to attend the meeting designated for your area, you're welcome to attend another session.
